

the **FOUR** shades
concept

By Terratinta Ceramiche®

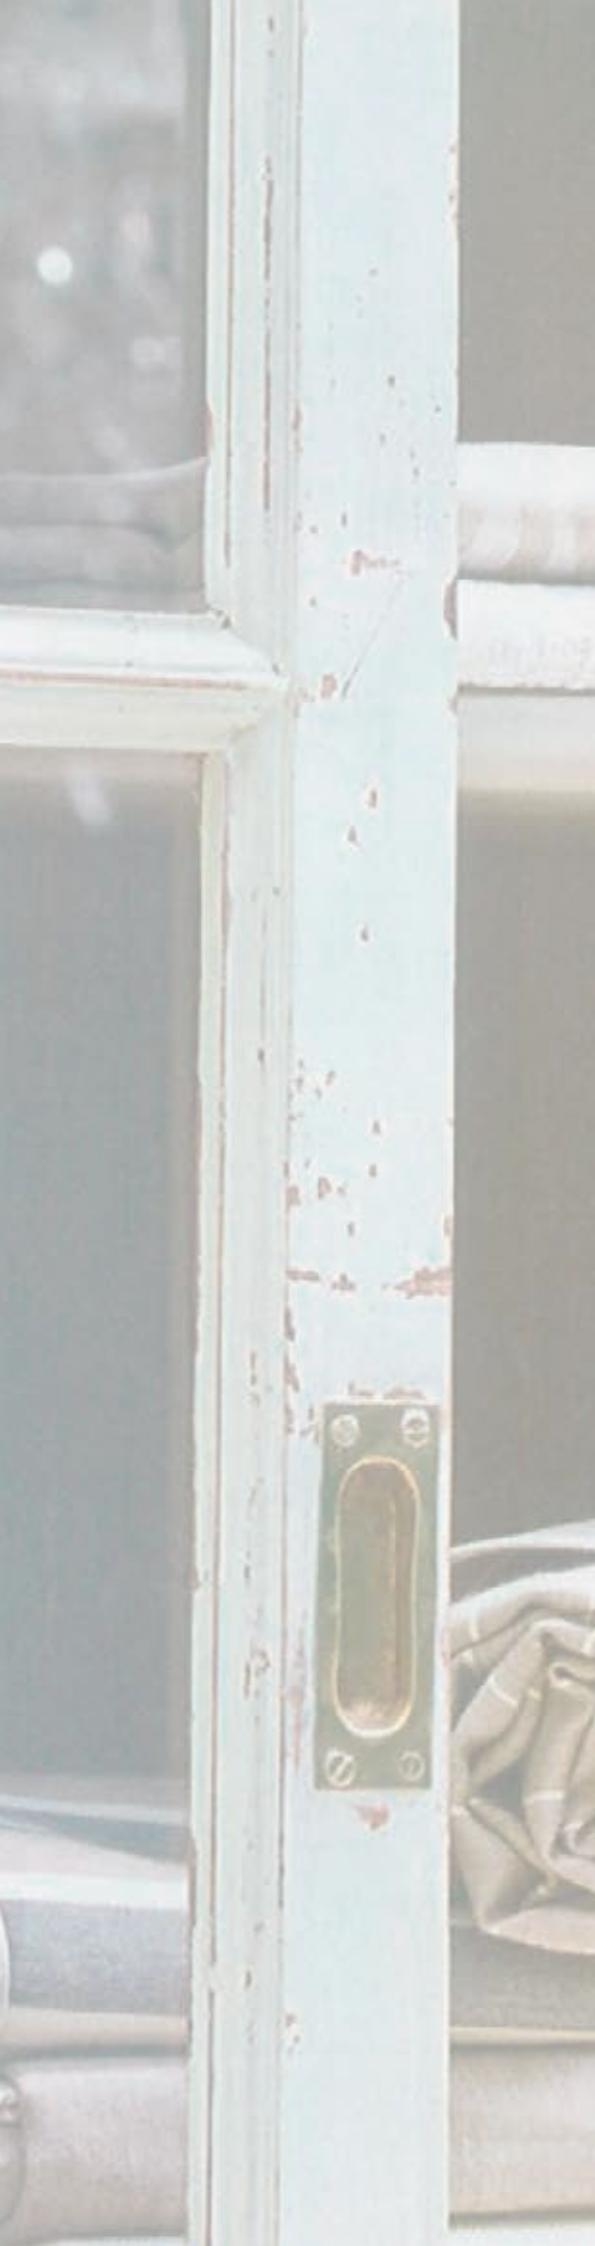

We almost always have choices,
and the better the choice, the
more we will be in control of our
lives.

William Glasser

FOUR SHADES concept

The FOUR SHADES Concept is a project designed starting from four colours of Betontech collection: White, Grey, Clay and Mud. We worked on these fours shades and created a unique, fresh and unusual concept, where the porcelain tiles meet glass mosaics and listels, where a re-interpretation of graphic decoration meets the latest ceramic technologies. The FOUR SHADES Concept: a sophisticated and polyhedric project.

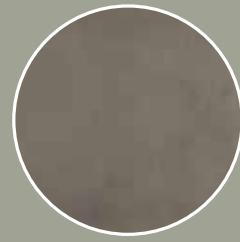

*everything
starts from...*

BETON TECH

WHITE

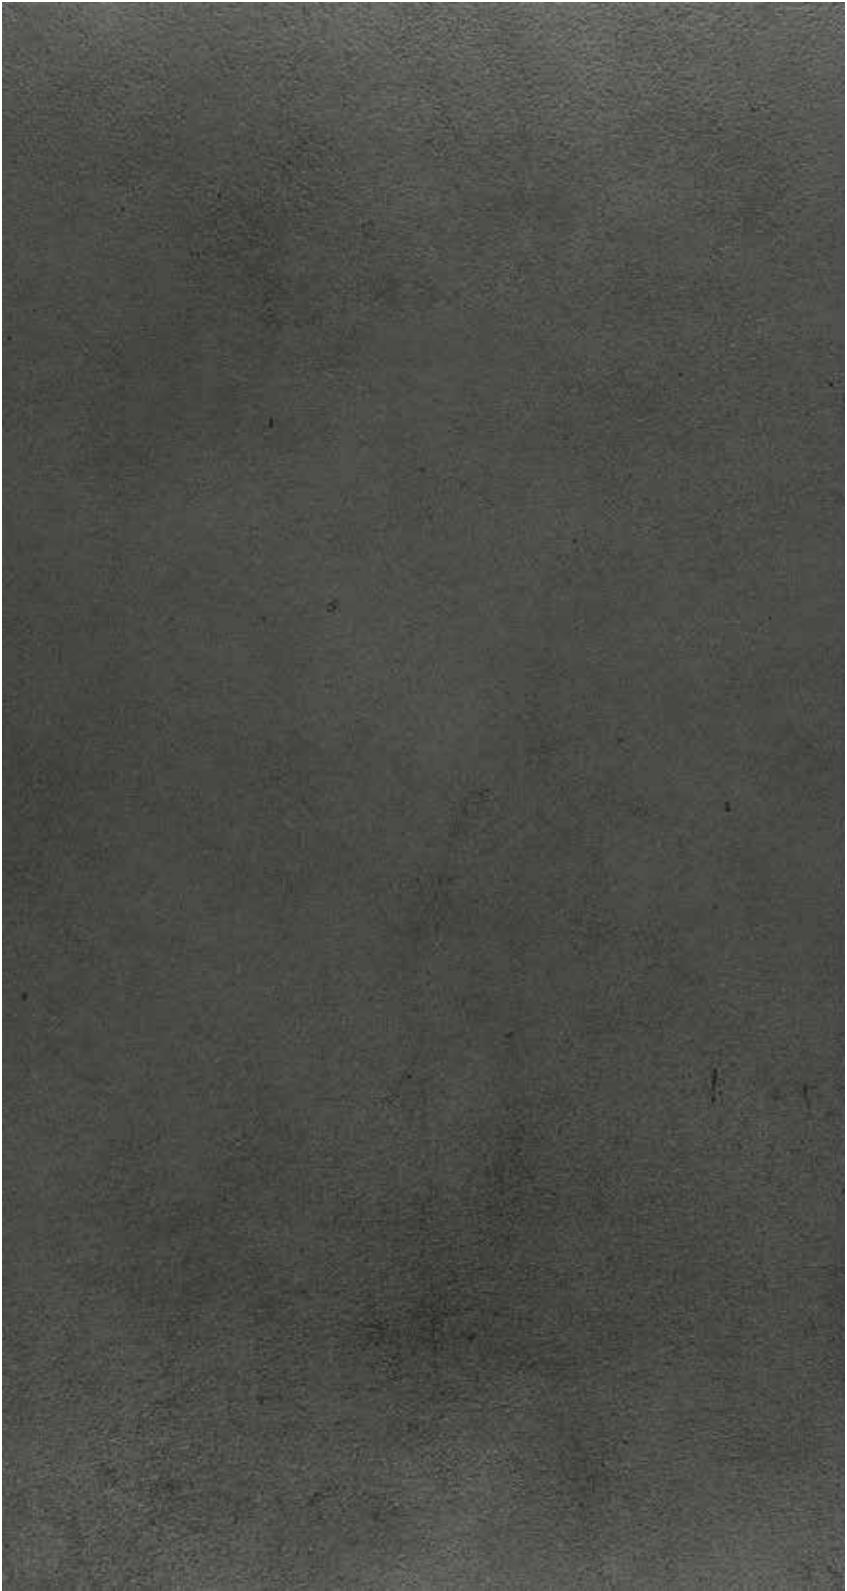

A solid gray rectangular image occupies the left two-thirds of the page, separated from the right third by a vertical dashed line.

GREY

CLAY

MUD

White, Grey, Clay and Mud:
four main shades where
different styles and products
are melted, in order to create
this new, big concept.

Betonwood is the first collection who gives to gres porcelain tiles a unique and demanding effect: more than the warmth of natural wood, more than the simple perfection of modern Beton look. Six surprising structures mixed together with a refined personality and an extraordinary effect. Finally, something new.

Betonepoque is not just a collection. Starting from four colours from Betontech collection, we designed something with a vintage aurea and a modern and versatile soul. Something perfect for both walls and floors.

Betonepoque is a new era.

WHITE-GREY PATTERNS MIX

DO
—what—
YOU
—love—

Betontech White 20x20

TTBT0120N

Not just patterns.

Betonepoque 20x20 tiles come also on plain colour shade. Once again, we love to mix and match the minimalist and the old fashion-refined style. Simplicity and design, for every space, on every time.

WHITE-GREY PATTERNS MIX (wall)

BETONWOOD WHITE and GREY 15x90 (floor)

Life should not only be lived,
it should be celebrated.

Osho

Betontech Grey 20x20

TTBT0520N

Betonepoque: 9 different patterns on two shades (White-Grey and Clay-Mud) plus 4 plain-colours (White, Grey, Clay and Mud), all on 20x20 size.

Betonepoque. A new era.

You can choose:

-One of the nine different patterns available (possible mix with 20x20 plain White or 20x20 plain Grey).

(Minimum order for single pattern: 1 box. Number of pieces contained in a single box: 12)

-A personal mix: you can choose from two to nine different patterns to include in your "own mix". (20x20 plain White and/or 20x20 plain Grey can also be included in your mix).

(Minimum order for mix: 1 box. Number of pieces contained in a single box: 25)

LEED

LEADERSHIP IN ENERGY AND ENVIRONMENTAL DESIGN

The U.S. Green Building Council (**USGBC**) is the most important American association of industries in the building sector aimed at promoting methods of design and construction that lead to a significant reduction or elimination of the negative impact that buildings have on the environment.

To enable concrete quantification and correct monitoring of the degree of sustainability achieved by a building project, in 1999 the USGBC established a certification procedure called **LEED (Leadership in Energy and Environmental Design)**.

The LEED credits certify the eco-sustainable requisites of projects which can "function" in a sustainable and autonomous way in terms of energy and which have a **low-environmental impact** throughout their life-cycle.

The LEED system is based on the award of points for every single eco-sustainable requisite of a project, divided into several major areas:

- sustainable construction sites
- protection of water resources
- energy efficiency and use of renewable sources
- storage, composition, and origin of construction materials and raw materials
- indoor environmental quality
- innovation in design.

Totalling up all the awarded points, the building obtains a certain eco-sustainable level. **Terratinta Ceramiche**, with **Betonwood** project, has achieved 6 LEED points.

MR Credit 5.1 Regional Materials 10%	(1 LEED point)
MR Credit 5.2 Regional Materials 20%	(1 LEED point)
SS Credit 7.1 Heat Island Effect - Nonroof	(1 LEED point)
SS Credit 7.2 Heat Island Effect - Roof	(1 LEED point)
EA Credit 1 Optimize Energy Performance	(1 LEED point)
EQ Credit 4.2 Low Emitting Materials - Flooring Systems	(1 LEED point)
