Cleaning systems for maximum
performance and profit

a brand of
 **FREUDENBERG**

High-performance cleaning. Low total costs.

Isn't that what you are looking for?

Welcome inside the Vileda Professional product catalogue! This is where you will find the products and solutions that satisfy your professional needs for cost-efficient, high-performance cleaning. But leading products are only part of the Vileda Professional offer. Work with us, and we will also support you with intelligent, value-adding services that will sharpen your competitive edge.

"Listen and learn" is a mantra to us

We are the partner that listen more than we talk. We are the company that is constantly launching innovative and high-performance cleaning solutions for your professional business. So you can make sure that office workers feel comfortable, hospital patients get well, hotel guests enjoy their rooms and pharmaceuticals are produced without contamination.

Be sure we are the experts in cleaning

Since 1948 we have provided the cleaning industry all over the world with innovative and high-performance cleaning solutions that make a real difference.

We bring down bacteria levels and infection rates. We help to keep premises looking clean and attractive. We provide ergonomic tools that keep the cleaning staff healthy and personnel costs at bay.

All of this leads to a lower total cost-in-use.

Always change a winning concept

Every year we invest heavily in developing concepts and solutions that will strengthen your business position in the cleaning industry.

Behind our products are all the advantages that make working with us a profitable choice for your business – research and development, materials selection and production methods, testing, testing and more testing.

Be sure we are constantly developing and changing our winning concepts, to become even better in developing the best solution for your particular needs.

Let's do business

The best credibility we get from success stories from our satisfied customers. When listening to our customers, these are some of the learnings:

- ✓ Top contamination control
- ✓ Excellent bacteria pick-up, without need for chemicals
- ✓ Lower infection rate in hospitals
- ✓ Lower staff absentee rate
- ✓ Lower personnel costs
- ✓ Lower total cleaning costs

Explore the extensive product catalogue – and visit www.vileda-professional.com – and we will be more than happy to do business with you.

Welcome inside!

Wiping

Which properties do you need? High absorbency for wet surfaces? Absolutely streak-free, lint-free cleaning for glossy surfaces? Removal of grease and stubborn fingerprints in a single wipe – without chemicals?

Which method suits your cleaning and hygiene tasks best? Bucket method? Spray-cleaning system or pre-preparation of cloths? Vileda Professional's comprehensive range includes cloths for every need and every system, from economical semi-disposables to advanced microfibres.

Microfibre Cloths

Nothing cleans deep like microfibrres. One wipe removes both grease and fingerprints, with no scrubbing or drying afterwards. How? The ultrafine microfibrres literally scrape and absorb dirt from the surface, leaving behind nothing but tiny water droplets. You save time and money, especially since you can do the job with a minimum of chemicals – or none at all.

PVA Cloths

Unique damp cleaning cloths made from high quality PVA material. Vileda's PVA cloths offer high absorbency properties for drying of wet surfaces. They are resistant to chemicals of leaches and washable up to 60 °C.

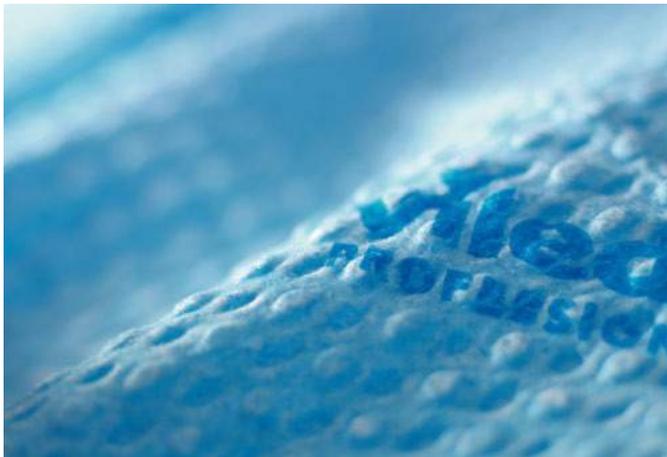

All-purpose Cloths

Vileda's non-woven all-purpose cloths offer a range of functional properties. The Vileda cloth stays fresh longer, and the high fibre density results in capillary action, greatly improving absorbency.

Sponge Cloths

Vileda sponge cloths offer superior absorbency compared with traditional cloths, and can typically absorb up to 15 times their own weight in water. For use in all areas where absorbency and spill pick-up are essential, such as everyday wiping of kitchens, toilets and sanitary areas.

Semi-disposable Cloths

With our semi-disposable cloth we offer a cheaper alternative for the superior cleaning. Especially in hotel, restaurant or catering areas where hygiene and cleanness is needed. Semi-disposable cloths can be used as a disposable cloth in hygienic sensitive areas, but also be used as semi-disposable cloth, which can be washed several times.

Above the Floor Cleaning Tools

Trends in interior design are moving towards the use of glass, stainless steel, mirrors, tables, whiteboards and many other glossy finishes. These surfaces require specific solutions that traditional cleaning methods do not meet, resulting in poor results, increased cleaning time and costs.

Vileda Professional's interior solutions offer fast, efficient, safe and effective cleaning of these challenging interior surfaces and even high and inaccessible areas.

Microfibre Cloths

Nothing cleans deep like microfibres. One wipe removes both grease and fingerprints, with no scrubbing or drying afterwards.

How? The ultrafine microfibres literally scrape and absorb dirt from the surface, leaving behind nothing but tiny water droplets. You save time and money, especially since you can do the job with a minimum of chemicals – or none at all.

NanoTech micro

Antibacterial cleaning cloth based on Microfibre Evolon technology.

- ✓ Designed with a combination of endless microfibre and nano silver particles
- ✓ 99.9% bacteria or germs removal when wiping surfaces (Certified by BMA)
- ✓ No growth of bacteria or germs on cloths
- ✓ Antibacterial effect does not fade away when cloths are being washed

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application

All-purpose Cloths

A dense surface layer, high absorbency and easy to rinse, Vileda's non-woven all-purpose cloths offer a range of functional properties that keep them fresh and hygienic, use after use. Woven cloths trap dirt in the open weave of their fibres, but dirt particles are unable to penetrate a non-woven surface, and can be rinsed easily. With little or no dirt particles to feed on, the growth of bacteria and germs is greatly reduced. The Vileda cloth stays fresh longer, and the high fibre density results in capillary action, greatly improving absorbency.

WiPro (antibacterial)

- Hygienic all-round cloth, highly absorbent
- Flexible and versatile
- With antibacterial properties preventing the growth of germs in moist condition

Express Interior System

The Express Interior System has been developed to effectively clean glass, mirrors, ceramics, plastics, laminates, stainless steel and many other glossy surfaces.

- ✓ Microfibre cleaning performance
- ✓ Removes greasy dirt and fingerprints
- ✓ Streak-free finish
- ✓ Fits a variety of tools and systems (see table below)
- ✓ Use with telescopic handle for high level cleaning

Scouring

Many scourers look alike on the outside, but if you choose one from Vileda Professional you will quickly notice the difference in terms of both quality and the end result. Poor quality scourers wear quickly once the top layer of abrasive fibres wears down, you are left with a scourer that demands more time and effort to get things clean. In a Vileda Professional scourer, every fibre is coated with grit and resin, this penetration of abrasive throughout the structure ensures superb cleaning action throughout the lifetime of the scourer. The strong resin-to-fibre bond ensures even wear of both fibres and abrasives, resulting in consistently excellent cleaning performance. Additionally Vileda Professional scourers are manufactured from nylon which does not rust, splinter, clog with debris and are easy to rinse clean.

Handpads

Handpad Super Scourer

- High performance, high quality abrasive scourer
- Ideal for general washing-up and mark removal
- Available as a handpad in 2 sizes or on a roll

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application
100233	Handpad Super Scourer (large)	15 x 23	10	5	100811

101884	High Foam Scourer Non-Scratch, yellow	7 x 15	10	10	102564	

Medium Foam Scourer

Medium Foam Scourer Strong

- High performance, high quality, green abrasive scourer with natural style foam backing
- Ideal for general washing-up and mark removal
- Foam backing protects fingers and keeps the scourer flat for maximum contact with the cleaning surface

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application
101879	Medium Foam Scourer Strong	9 x 14	10	8	102559	

PurActive

Effect of PurActive wave-shape

PurActives special coating easily lifts stubborn grime whilst being gentle on all hard surfaces. It cleans three times more effectively than traditional non-scratch scourers and is more gentle on surfaces than a traditional abrasive scourer. Instead of scratching the dirt away like a traditional scourer, the special wave shaped surface structure lifts the dirt from the surface without scratching resulting in time savings through faster more powerful cleaning.

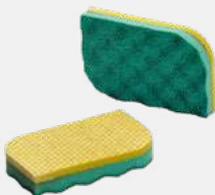

PurActive

- ✓ Easily lifts grease and grime
- ✓ Gentle on all hard surfaces
- ✓ Fits comfortably in your hand
- ✓ Colour coded to help prevent cross contamination

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application

Miracleclean

Tired of pen-marked table tops, scuff-marked floors, limy washbasins, dirty white-boards, greasy sinks, finger printed walls, and ground-in dirt in general?

Miracleclean is the solution to all these problem areas. With a minimum of effort and using only water it will instantly take away marks that used to be a problem. No need for aggressive chemicals, no need to struggle and sweat over annoying marks anymore, just dampen Miracleclean in water and rub the mark away.

Miracleclean

The ideal problem-solver for spot-cleaning. Removes tough marks, stains and ground-in dirt with a minimum of effort where other methods normally fail.

- / Works with water only, no chemicals needed
- / Strong cleaning performance with a minimum of effort
- / Certified to OEKO-TEX® STANDARD 100

Griddle System

The complete system for tough cleaning jobs in all commercial kitchens. The Griddle system is flexible and easy-to-use and can be used in combination with a detachable aluminum handle that protects the users hands from burning on hot surfaces and improves reach. The lightweight, ergonomically designed plastic handle makes it easy for users to apply the correct amount of pressure for efficient cleaning with both the griddle screen and griddle pad. The solid, high-quality construction continues with the metallic plate in the griddle holder and as every part of the system is replaceable, you can count on long-lasting performance. Additionally the high performance griddle pad fulfils HACCP regulations.

Griddle Scourer Starter Kit

- Starter Kit consists of griddle holder, pad and screen
- Removable plastic plug to allow use with the optional aluminium handle

Gloves

Chemical or mechanical hazards, heavy-duty cleaning, microbiological hazards, and foodstuff handling – the directives for Personal Protective Equipment (PPE) are clear: employees have to provide their staff with appropriate protection against hazards.

Vileda Professional gloves are the answer to the various needs to meet the different professional cleaning needs as well as the legal requirements. Vileda Professional offers a complete range of protective and comfortable gloves, each suitable for its respective professional task.

To optimize glove economy – as a part of your total cleaning costs – be sure to select the right glove for the job. As each glove has its top protection focus it's easy to select the most suitable one, and thereby investing in exactly the right performance you expect from the glove.

Labeling Symbols

Symbol	Pictogram meaning	Information
	Mechanical Protection The glove has a mechanical protection tested acc. to EN 388 Test result is a 5 digit code A B C D E with values from 0 to 4 or 5 and from A to F (0 or A = low, 4/5 or F = high, X = not performed or not applicable)	A: Abrasion resistance (performance levels 0 to 4) B: Blade cut resistance (performance levels 0 to 5) C: Tear resistance (performance levels 0 to 4) D: Puncture resistance (performance levels 0 to 4) E: TDM ISO EN 13997 cut resistance (performance levels A to F)
	Chemical Protection The glove has a chemical protection tested acc. to EN ISO 374 Test is performed against a chemical list of 18 standard chemicals	Type A = chemical breakthrough time > 30 minutes against at least 6 chemicals from the list Type B = chemical breakthrough time > 30 minutes against at least 3 chemicals from the list Type C = chemical breakthrough time > 10 minutes against at least one test chemical from the list (no code underneath the pictogram) Please check table "Chemical Recommendation" in catalogue or ask for technical support! Vileda Professional gloves are sufficient to and protect against diluted common cleaning agents. Water/Air-leak tested (AQL ≤ 1,5)
	Protection from Microorganisms The glove has a bacteria and fungi protection tested acc. to EN ISO 374	Protection against bacteria and fungi, not tested against virus
	Protection from Microorganisms The glove has a bacteria, fungi and virus protection tested acc. to EN ISO 374	Protection against bacteria, fungi and virus
	Glass & fork symbol The glove is suitable for food contact	
	Info booklet For further information, please contact Vileda Professional	
	ECARF symbol The ECARF (European Centre for Allergy Research Foundation) seal guarantees that the glove is free of latex allergens	

Nitrile Gloves

- Highly protective gloves against chemicals and detergents up to high chemical risk
- Best in class resistance against oily, fatty components and hydrocarbons
- Latex-free gloves for users with latex allergy
- Protection against bacteria and viruses

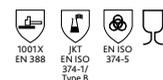

Comfort

Latex-free nitrile glove for all day-cleaning with best wearing comfort. Ideal also for food handling.

- Outstanding sensitivity and tactile performance due to its optimized nitrile thickness
- Excellent moisture absorption based on its innovative inner-lining, keeping users hands drier
- Good chemical resistance
- Optimal durable glove for food preparation and food distribution
- Latex-free, no risk of latex allergies

Art.no. Case TSU	Description	Size	Pair/pack	Packs/case	Art.no. Pack BCU	Application

How to use gloves

1. Before putting on gloves

Clean and dry your hands thoroughly before putting on gloves.

2. Do not reuse damaged gloves

Please use only gloves which do not have any damages like holes or tears.

3. How to put on gloves

Please turn the cuffs in order to prevent liquids to flow into the glove.

4. Usage duration

Do not use one pair of gloves for too long: please check the chemical recommendation, alternate between 2-3 pairs if long time use is required.

5. Clean gloves after usage

Please clean the gloves before taking them off: after contact with acid or alkaline chemicals please wash off with water and dry afterwards.

6. How to take off gloves

Please do not touch the outer side of the gloves while taking them off: avoid contact to chemicals / bacteria.

7. How to store used gloves

Take care that the used gloves dry properly until next use by e.g.: putting the gloves on a gloves rack, hanging the gloves on a (clothes) line.

8. Hand care after usage

After taking off the gloves, please wash your hands and use a suitable hand cream.

Wrapmaster

The Wrapmaster is the ideal professional system for protection and preservation of perishable food. It's easy and fast to use everywhere: in canteens, kitchens, catering. Wrapmaster dispensers have been found to give savings of up to 35% through reduced waste and increased performance. The system is very hygienic, as cling film and foil rolls are protected against cross contamination by the easy to clean, robust ABS casing.

Wrapmaster Dispenser

- ✓ Free standing or wall mountable
- ✓ Protected stainless steel cutting system for highest safety
- ✓ Cling film and foil cut tangle free every time
- ✓ Advanced refilling system for effortless dispensing of cling film and foil
- ✓ Foil version ensures no more torn or bruised foil

Floor Cleaning

As all sites differ in size, floor coverings, volume of traffic, hygiene and health and safety requirements one floor cleaning system is not sufficient to meet all needs. That is why Vileda Professional offers a comprehensive range of solutions from the standard leading Swep Pre-prepared system, through to the UltraSpeed Pro, UltraSpeed Mini and SuperMop. By choosing the correct system for your requirements you can achieve better performance, ergonomics and lower your overall total cost-in-use.

Swep Pre-Prepared Flat Mop System

The Swep system was launched over 40 years ago and became an immediate floor cleaning favourite. As the first pre-prepared system on the market, Swep system not only set new standards in the cleaning business but has continued to innovate year on year. With a choice of three mop types (MicroTech, MicroCombi and MicroPlus and 3 widths (35 cm, 50 cm, 75 cm) you benefit from the best solution for effective daily cleaning. Plus by being double sided Swep Duo mops let you clean twice the area by just flipping the frame and keep mopping.

UltraSpeed Pro Flat Mop System

Ultra Speed Pro is the most up to date, best performing flat mop bucket and press system on the market. It is so easy to use it needs no training and is adaptable to suit all sites. Start with the single bucket system for general floor cleaning or add a second bucket onto the chassis and you have a double bucket system for mopping larger areas. If you want to fulfil more cleaning tasks you can use the second bucket to carry chemicals, cloths, paper etc. Whatever the cleaning requirements, UltraSpeed Pro will dramatically raise your standards in speed, performance/costs, versatility and ergonomics.

UltraSpeed Mini Flat Mop System

UltraSpeed Mini was created specifically to fulfil the requirements of all small area cleaning (10–30 m²), UltraSpeed Mini combines the ergonomic, performance and hygiene benefits of the larger UltraSpeed Pro range into a small, compact system. Where traditional small area cleaning systems such as socket mops and floor cloths are limited in their usage areas UltraSpeed Mini's flat mop frame allows you to perform many more cleaning tasks including: walls, tiling in kitchens and toilet areas, skirting, staircases, safety floors (with SafeMop pad) and behind pipes and toilets.

UltraSpin Mini

UltraSpin Mini is a simple to use, compact system that combines a revolutionary spinning press with a 100 % microfibre mop head. As you control how wet the mop head UltraSpin Mini can be used across all applications from very dry cleaning of delicate flooring through to very wet for disinfection processes. The results are effective cleaning, in less time, at lower cost and with less strain for the user.

CombiSpeed Pro Pocket Flat Mop System

The CombiSpeed Pro system includes a wide assortment of pocket and strip mops for use in a variety of applications. From the high performance of Trio and MicroSpeed Plus to the economy of Contract and MicroLite we have a mop that meets your requirements in terms of application, performance or budgets. Each mop type is available in 40 cm and 50 cm sizes in both pocket and pocket/strip attachments and fit all commercially frames. Additional features also include barcode labels and colour coding tags as standard.

String and Socket Mop Systems

Vileda offers wet mopping kit solutions for all types of sites and applications. Built around the unique **vertical press**, they obtain the best scores in cleaning performance and cost in use. Suitable for all types of flat mops, as well as Kentucky mops (up to 400 gr).

Professional SuperMop is a compact **socket mop system** for use in small and medium sized hard floor areas. The unique construction used in both SuperMop Ag and SuperMop Micro Ag hinders the growth and multiplication of bacteria and now contains silver ions that inhibit 99.99 % of bacteria growth within the mop.

ClickSpeed Pre-Prepared System

ClickSpeed is a cost effective pre-prepared damp flat mopping system featuring a unique, patented mop frame that is very easy to handle and use. Simply drop the mop on the floor, slide in the frame and then click-close the magnetic mop holder. Click-Speed can be used with either microfibre durable mops or with microfibre based single use mops.

SprayPro Inox Spray Mopping System

SprayPro Inox is the professional, ready-to-use floor cleaning system containing all you need for bucket free mopping. Just fill the handle with water and you have everything you need to clean hard flooring and staircases in one easy-to-use unit. Designed to work with all Vileda Professional mopping systems it easily adapts to your needs, whatever the cleaning task or on-site conditions.

Express (Hook and Loop) Flat Mops

Comprehensive range of hook and loop mops for use with a variety of systems and methods including pre-prepared, spray and dust control.

Floor Cloths

High performance durable and single use floor cloths featuring the quality and performance you expect from Vileda Professional. For use with your choice of squeegees or scrubbers on all hard floors.

Dustmopping

The **disposable dustmop** range comprises a range of viscose and polypropylene non-woven mops that contain a special permanent oil impregnation treatment that retains its effectiveness even after storing for long periods. The **durable dustmops** are designed for fast removal of loose dust and dirt as part of daily maintenance or preliminary cleaning. When used as part of a maintenance system dustmopping acts as an intermediate cleaning step to reduce the frequency of wet or damp mopping.

Floorpads and Edging Tools

Superpads are designed to last longer, do the job faster, prolong the life of floor coatings and protect your investment in floorcare machinery. Available in a range of grades and sizes for all motor speeds.

Edging Tools & Pads are designed to simplify cleaning, maintenance, restoring and manual spot-cleaning processes. For use in areas inaccessible to machines including corners, walls, floor edges and staircases.

Sweep System

More than 40 years of success is not a coincidence. When Swep was launched, it became an immediate floor cleaning favourite. Being the first pre-prepared system on the market, the Swep system swept the floor with the competitors and set new standards in the cleaning business. Now the new Swep generation or core and specialist application ranges are here – with even better performance, ergonomics and lower total cost-in-use.

Core Range

80% of your cleaning tasks are related to general floor cleaning, where the cleaning result and speed of cleaning are the most important factors. The SWEP Duo core range comprises three types of mops with different characteristics in three different widths ensuring you benefit from the best solution for effective daily cleaning.

Swep Duo MicroTech
Low friction, microfibre cleaning performance. Ideal for use on uneven, very dirty and/or untreated surfaces. 35, 50 and 75 cm

Swep Duo MicroPlus
Highest cleaning performance due to cut pile microfibre construction. Especially effective on sealed and smooth floors. 35, 50 and 75 cm

Swep Duo MicroCombi
Combines the microfibre cleaning performance of the MicroPlus with the loose dirt removal of MicroTech. 35, 50 and 75 cm

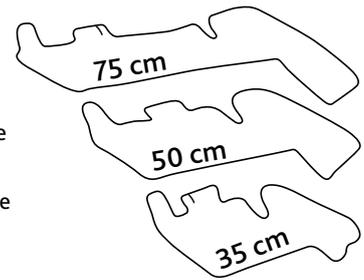

Which size is best for you?

Choosing the correct width of mop has a large impact on your overall efficiency, but which width of mop is correct for you?

35 cm: Ideal for washrooms and small areas less than 15 m². This size is also ideal for above the floor cleaning tasks such as walls, tables and white-boards.

50 cm: Ideal for general cleaning of both large and small areas. The combination of a wide coverage per pass and a lightweight design makes this size the most popular width of mop.

75 cm: Ideal for large open spaces with minimal furnishing such as corridors, sports halls etc.

Specialist Application Solutions

The remainder of your cleaning tasks often have specialist requirements that products designed for general use do not fulfil. The Swep specialist application range comprises specialist mops, high level dusting tools and hand mops. Used in combination with the core range you will have a solution for every daily cleaning task.

Heavy dirt removal and high absorbency
Extramop | Single 35 cm & 50 cm

Highest hygiene standards
HygienePlus | Duo 35, 50, 75 cm | Single 50 cm

Maintenance of safety flooring and washrooms
SafetyPlus | Duo 35 cm

Agitating heavy dirt on safety flooring
SafetyMop | Single 50 cm

Less than 20 m² cleaning
MicroTech, MicroCombi, MicroPlus | Single 50 cm

Cleanroom, controlled environment/ESD
MicroControl | Single 50 cm

Dust mopping and very large area cleaning
MicroCombi | Single 120 cm

Dusting of high and narrow spaces
Duo Duster frame and pad

Furniture, behind radiators etc.
Duo Handmop | SafetyPlus

The Core Range – Swep Duo

By being double sided Swep Duo mops let you clean twice the area by just flipping the frame and keep mopping. Plus you only need to purchase and to launder half the number of mops – meaning lower investments and lower usage of water, chemicals and electricity.

Swep Duo & Swep Duo Plus Mop Frame

- ✓ Swep Duo Plus Frame with built in lever for hands free removal of dirty and/or contaminated mops
- ✓ Lightweight and ergonomic
- ✓ Cleans the double space
- ✓ Trapezoidal shape for easy cleaning of corners
- ✓ Works with all core and specialist application double and single sided mops
- ✓ Recommended handle: Aluminium telescopic handle (119966)

143811	Swept Duo MicroCombi (CC)	75	10	143847	

Specialist Application Mops

Areas with less than 20 m²

Duo mops offer the best cost-in-use through laundry, dosing and preparation time. But there are some areas that are too small to benefit from the second side. E.g. patient rooms often measure around 20 m². To fulfil these requirements the three mops in the core range (MicroTech, MicroCombi and MicroPlus) are available as 50 cm Single sided mops.

Swept Single MicroTech

- Low friction, microfibre cleaning performance
- Ideal for use on uneven, untreated or unstructured floors, tiles etc.
- Long yarn construction takes the shape of any floor, removing trapped dirt
- 900 wash durability
- Nordic swan certified

143830	Swept Single MicroCombi Mop (CC)	50	30	143866	

Areas with heavy dirt, requiring higher absorbency

Cleaning requirements throughout sites are affected by a number of factors including levels of traffic and the proximity to entrances. Often in winter months (or countries with wet climates) areas near entrances have problems with higher levels of wet dirt. Additionally some porous flooring types require higher levels of water for pre-preparation which are not adequately covered through the core range of mops.

Sweep Single Extra

- ✓ Ideal for damp/wet cleaning of heavily soiled floors
- ✓ Extremely high absorption for wet dirt pick up and maximum effect on heavy stains
- ✓ For use on all floor types
- ✓ Can be used with Sweep Duo and Sweep Duo Plus mop frame

Art.no. Case TSU	Description	Size in cm	Pieces/case	Art.no. Pack BCU	Application
143827	Sweep Single Extra Mop (CC)	35	10	143863	
114441	Sweep Single Extra Mop (CC)	50	30	508428	

Areas with high hygiene requirements

Nothing beats microfibres when it comes to hygienic cleaning! All mops in this section have a proven 99.99 % bacteria reduction. Within health care settings the single use concept (MicroOne Mops) additionally reduces the risk of cross contamination as one mop is used per patient room and simply disposed of after use.

Sweep HygienePlus

- HygienePlus set new floor cleaning standards in performance, effectiveness and hygiene with
- ✓ Independently certified antibacterial performance
 - ✓ 99.99 % pick up and removal of bacteria from surfaces
 - ✓ Keeps mops hygienic
 - ✓ Enables mops to be stored wet overnight
 - ✓ A tumble drying process is not needed saving up to 33 % on laundry costs

140695	Sweep Single HygienePlus (CC)	50	30	523465	

Areas with safety floors that need agitation and removal of dirt

Many sites have installed safety flooring into washroom and heavy traffic areas to reduce the slip risks. The structure of safety flooring is designed to be non-slip and rough making it difficult to clean with conventional mops and requires a two-step process. Step 1 = Agitation and loosening of the dirt. Step 2 = Removal of the dirt. Duo Safety Plus is the most effective solution to this specialist need. The safety mop side is used to agitate and loosen the dirt from the surface. The mop is flipped onto microplus side to pick up and remove the loose dirt.

Swept Duo SafetyPlus

- High performance maintenance cleaning of safety and structured flooring
- Safety mop side is used to agitate and loosen the dirt from the surface
- Mop is flipped onto MicroPlus side to pick up and remove the loose dirt

Low Particle Shedding

Many sites have requirements for low particle shedding that are not full controlled environments. As part of the CE range we have the MicroControl Single 50 cm mop which we can offer to use to fulfil this need.

Swep Single MicroControl

- ✓ Low particle shedding
- ✓ Suitable for controlled environments
- ✓ Please also look at our complete CE assortment on page 101

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Art.no. Pack BCU	Application
140708	Swep Single MicroControl	50	30	523471	  

Dust Mopping

Even in sites using Swep there are requirements for interim dust mopping in areas such as corridors, foyers walkways etc. Presently many sites are using low cost nylon or cotton solutions to solve these issues which often perform poorly and look unprofessional. The MicroCombi Single 120 cm is in the range to fulfil sites dust mopping requirements. The mop fits onto the 120 cm wire frame by tying the loops on the back of the mop allowing users to benefit from the cleaning performance and durability of a Swep mop.

Swep Single MicroCombi (120 cm)

- ✓ Ideal for dust mopping of large areas
- ✓ Cleaning performance of the MicroPlus
- ✓ Loose dirt pick up capabilities of MicroTech

UltraSpeed Pro

Ultra Speed Pro is the most up to date, best performing flat mop bucket and press system on the market. It is so easy to use it needs no training and is adaptable to suit all sites. Start with the single bucket system for general floor cleaning or add a second bucket onto the chassis and you have a double bucket system for mopping larger areas. If you want to fulfil more cleaning tasks you can use the second bucket to carry chemicals, cloths, paper etc. Whatever the cleaning requirements, UltraSpeed Pro will dramatically raise your standards in speed, performance/costs, versatility and ergonomics.

UltraSpeed Pro Single Bucket

- ✓ The fastest bucket and press microfibre mopping system
- ✓ Able to clean over 750 m² per hour in a single step or 360 m² two step process
- ✓ Fast wringing – simple to use and twice as fast
- ✓ Efficient press – releases up to 50 % more water
- ✓ Floors dry faster – reduce slip hazards
- ✓ Hygienic – no hand contact with mops or cleaning solution
- ✓ Easy to use – no training required
- ✓ Ergonomic – lightweight, no bending to wring
- ✓ Starter kits contain mop system, wringer, mop frame and mop pad
- ✓ Ready to Go kits contain all items of the starter kit plus a telescopic handle
- ✓ Ready to Go kits Push contain all items of the Ready to Go kits plus a push bar

Pocket Mops and CombiSpeed Pro

The CombiSpeed Pro system includes a wide assortment of pocket and strip mops for use in a variety of applications. From the high performance of Trio and MicroSpeed Plus to the economy of Contract and MicroLite we have a mop that meets your requirements in terms of application, performance or budgets. Each mop type is available in 40 cm and 50 cm sizes in both pocket and pocket/strip attachments and fit all commercially frames. Additional features also include barcode labels and colour coding tags as standard. With the CombiSpeed Pro cleaning system you choose the mop that suits your requirements, not the mop that suits your system.

CombiSpeed Pro Frame

- ✓ Versatile mop frame available in two sizes (40 cm and 50 cm) that can be used with all pocket and strip mop systems
- ✓ Innovative patent pending strip clamps allows easy fixation of strip mops
- ✓ Durable, lightweight, low profile design reduces stresses on operators shoulders and backs
- ✓ Cleaning under tables, radiators etc. simple and ergonomically correct

Professional SuperMop

Professional SuperMop is a compact socket mop system for use in small and medium sized floor hard floor areas. The unique construction used in both SuperMop Ag and SuperMop Micro Ag hinders the growth and multiplication of bacteria and now contains silver ions that inhibit 99.99 % of bacteria growth within the mop.

SuperMop & SuperMop Micro Ag

- ✓ Independently tested to inhibit bacteria growth
- ✓ Oval design, allows easy cleaning of corners
- ✓ Very high resistance to detergents and bleaches
- ✓ Low friction, lightweight non-woven-material
- ✓ Highly absorbent for spill pick up
- ✓ Releases liquids easily during wringing, to leave floors drier and floors back in use faster
- ✓ Colour-coded in four colours to avoid cross contamination

Mop'n dry with floor cloth MicroMulti

How to achieve professional results with a simple mopping system. Mop'n Dry is the result of three combined elements:

- MultiSqueegee swivel
- Floor cloth clips
- Floor cloth MicroMulti with following features:
 - Knitted microfibre cloth for optimum cleaning performance
 - Special pattern to reduce friction
 - For all floor types
 - For normally soiled areas

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application

SpillEx

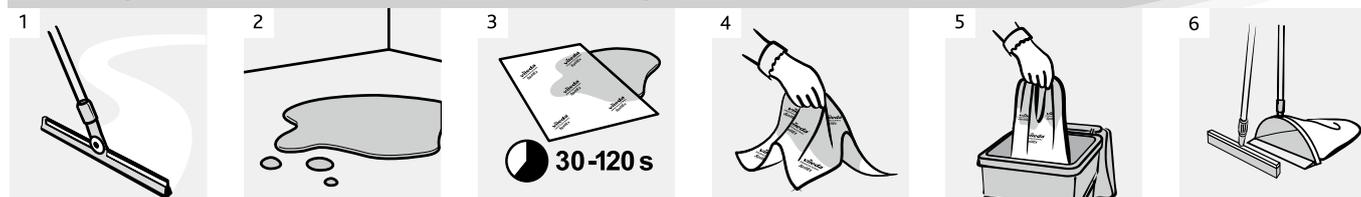

- Super absorbing disposable floor cloth
- For fast removal of a wide range of water based spillages from hard floors
- Bonds the liquid and contaminants safely in the cloth, no dripping
- No risk of soiling the bucket water with the spillage, no risk of cross-contamination

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application
146760	SpillEx	51 x 37	20	10	146761	  

Collect spill

Place and absorb

Pick and dispose

1 Collect the spill with the Squeegee in one area

2-3 Place SpillEx over it, let it absorb and remove after a few minutes

4-6 Any broken glass or similar, can be removed with dustpan

Disposable Dustmopping

The disposable dustmop range comprises a range of viscose and polypropylene non-woven mops that contain a special permanent oil impregnation treatment that retains its effectiveness even after storing for long periods.

Ideal for use in dry cleaning hospitals, offices and computer rooms the pre-impregnated surface collects dust like a magnet and reduces the number of airborne particles.

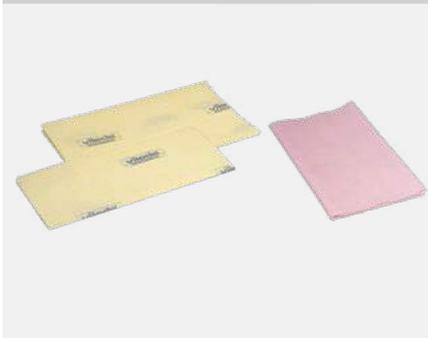

Dustmop Frame Plastic

- Developed for use with all disposable dustmops
- Long-lasting, durable rubber blades ensure maximum surface contact
- Universal connector fits all handles

Art.no. Case TSU	Description	Size in cm	Pieces/pack	Packs/case	Art.no. Pack BCU	Application
122783	Dustmop Frame Plastic	60	1	10	122784	

Impregnated Dustmop

Dustmop High Performance (101)

- For dry cleaning of hospitals, offices and computer rooms
- The pre-impregnated surface collects dust like a magnet
- Reduces the number of airborne particles

Dustmop Standard (pink)

- Ideal for dry cleaning of hard floor surfaces
- The pre-impregnated surface collects dust like a magnet
- Easy, quick, high dust capacity

101878	Mop Cloth Roll	80 x 1000	1	10	500976	

Durable Dustmopping

Durable dustmop for fast removal of loose dust and dirt as part of daily maintenance or preliminary cleaning.

When used as part of a maintenance system dustmopping acts as an intermediate cleaning step to reduce the frequency of wet or damp mopping.

Dustmopping can also be used as the preliminary cleaning step of a two step floor cleaning process to remove fine dust particles and solid elements before damp or wet mopping.

Dustmop Frame Metal

- Break frame for use with Vileda durable dustmops (with pockets)
- Universal connector with Euro-clip

Floorpads

Superpads are designed to last longer, do the job faster, prolong the life of floor coatings and protect your investment in floor-care machinery. Available in a range of grades and sizes for all motor speeds.

- ✔ Improved machine stability means less stress on machine motors and easier handling for operators
- ✔ Even wear across pad surface without "roll-back" of fibres
- ✔ Abrasive penetrates through the whole thickness of the pad for a longer effective life
- ✔ Floorpads inner diameter 85 mm

Superpad black

- ✔ Highly abrasive stripping pad
- ✔ For wet stripping and removing of coating and sealing
- ✔ Pad to be used on non-delicate floors
- ✔ Durable by high chemical resistance

Brushware

Constructed from easy-to-clean high grade plastic and synthetic filaments, Vileda's hygienic brooms are designed for outlast and outperform ordinary brooms. The Superior brushware range offers best in class hygiene in use. The abrasion resistant bristles consist of Polyester PBT-filaments with excellent bend recovery and sweeping performance as well as a high resistance to a wide range of chemicals, oils, organic solvents and detergents. The strong Polypropylene plastic material withstands heavy use. Its smooth finish helps to prevent soil clinging to the surface. Stainless-steel staples fix the tufts and ensure longlasting rust-free hygiene. The Superior broom- and brushware range is heat resistant and can be autoclaved up to 134 °C for optimal hygiene.

Superior Broom soft/hard

- Effective floor sweeping with high quality Polyester PBT-filaments. Soft and hard bristles available
- PBT-bristles offering excellent bend recovery and high resistance against a wide range of chemicals
- Durable Polypropylene material with easy to clean surface and pin hole
- Stainless steel staples ensure long-lasting, rust-free hygiene
- Autoclavable up to 134 °C
- Universal screw-thread for German and Italian thread. Recommended handle TSU 111533

iQonnect ...

... enables you to better manage the operations of your cleaning workforce. Managers, supervisors and cleaners are able to do more in less time. Contract cleaners get all their documents and forms easily digitalized. Offer more transparency to your clients via real-time reports and dashboards. Save up to 15% of your managerial costs.

This is the opportunity to connect your managers, supervisors and cleaners. Have all information at a glance – the iQonnect core functions of our basic package* get you jump started with digitalization.

Time & Attendance Registration

- Completely replace offline time registration by digital solutions
- From NFC/RFID, over pin code to GPS, various options are available – depending on your demands
- Real-time monitoring and reporting of working hours

Staff/ID Management

- Store all cleaner files on legal status and give access to entitled personnel
- Custom HR information – available at any time
- Digitalized personnel-ID assignment to the site where they work
- ID validity check and access

Paperless Work

- Replace paper-based documents and forms and store all relevant documents digitally
- Keep your documents always up-to-date
- 24/7 access to any document
- Form-builder to create any digital document
- Automatic (client-)report generator (fill in data once)

Complaint Management

- React faster to complaints for superior customer satisfaction
- Customers generate complaints via online portal or app
- Status monitoring via complaint overview
- Task creator for quick complaint resolution

Task Management

- Plan, organize, schedule and keep track of all your activities
- Detailed working-plans with daily and periodical tasks
- Real-time insights in task completion via activity feed and reports
- 24/7 task creation and assignment to the cleaner on the job

Quality Management

- Constantly improve your performance by systematic quality checks
- Daily and periodical quality checks made easy
- Pre-defined quality management forms following EN 13549
- Easy adaptation to your existing processes or customer demands

Reporting

- Provide transparency and save time with automatically generated, pre-defined reports
- Reports can be created on almost any data stored
- Meet customer expectation on reporting needs
- Share information based on individual access rights
- Dashboard function for quick overview on KPIs

* Not all functions are part of the basic package or available in all countries.

Trolleys

The new Origo 2 sets a new benchmark among cleaning trolleys. Offering improved hygiene, higher efficiency, greater safety for users and sites as well as full integration of tablets and digitally aided cleaning devices.

Push button opening lids, storage for multiple tools, separable satellite trolleys and a unique in-lid tablet/pad storage solution allowing users to see and respond to push messages are just a few of the innovative features on offer.

The new Origo 2 further expands the existing VoleoPro and Origo trolley ranges.

OriGO SAFER

OriGO CLEANER

OriGO FASTER

OriGO SMARTER

OriGO GREENER

OriGO FLEXIBLE

The new Origo 2

Today, trolley systems are expected to do more than carry cleaning products and tools. Origo 2 rises to meet this challenge with new innovative features and seamless digital integration – all designed to offer you greater safety and connectivity, improved hygiene and higher efficiency. In short: perfect, validated cleaning results.

Learn more about the new Origo 2 [here](#).

OriGO FURTHER

Efficiency

Intuitive, faster cleaning

- ✓ Satellite trolleys: waste, pre-prepared or bucket & press
- ✓ New mop and storage boxes, compatible with all pre-prepared mops and equipment
- ✓ Divider allows dosing of a full or half box of mops to save chemicals and laundry
- ✓ Vertical tool storage for up to four mops of any width (25 cm to 75 cm)
- ✓ Motorised e-drive option for fast, easy movement on large sites

Hygiene

Cleaner operational and process management

- ✓ Hands-free lid opening for safe, clean operation
- ✓ Clearly defined sections keep waste well away from clean and used materials
- ✓ Protective lids on all buckets, boxes and trays keep contents clean
- ✓ Full colour coding of all elements
- ✓ Optionally split waste and used materials into 1, 2 or 3 sections

Security

Innovative design increases safety and peace of mind

- ✓ Secure your cleaning products and protect your clients' premises
- ✓ Lockable doors and top lids prevent unauthorised access to contents
- ✓ Hidden safety compartment for employees' personal items
- ✓ Soft-touch bumpers: no scuff marks and less damage to walls
- ✓ Foldable waste/used extension: even easier to store after use

Connectivity

Seamless integration of cleaning tools and digitally connected devices

- ✔ Supports tablets, e-drives, RFID tracking etc.
- ✔ World's first trolley featuring an in-lid tablet holder
- ✔ See and respond to push notifications directly, without opening or lifting the lid
- ✔ Compatible with any tablet and workforce management software
- ✔ Secure, fully lockable tablet storage to prevent theft

Sustainability

Taking responsibility for our environment

- ✔ Bucket and box range made from 50% recycled plastic meets international guidelines
- ✔ All elements of the trolley suitable for post-use recycling
- ✔ Recycled bucket and box range are black making them easy to identify
- ✔ Innovative logistics reduce CO₂ emissions from transportation

Customisation

Because every space, task and employee is unique

- ✔ All buckets, boxes and trays can be positioned anywhere
- ✔ Smart, integrated rail system with multiple height options for storage
- ✔ Seven different trolley types, each configurable to your specific requirements
- ✔ Compatible with all pre-prepared, bucket & press and waste systems

Configure your own:

myorigo2.vileda-professional.com

AX Origo 2

Our most compact trolley, designed for sites with limited storage after use.

- ✓ Foldable waste section
- ✓ Multi-height push bar
- ✓ Vertical mop frame holder (fits up to 5 tools/frames)
- ✓ One multi-height inner rail storage section for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for all pre-prepared cleaning systems

C Origo 2

Compact and agile, but with room to store all daily cleaning elements.

- ✓ Two multi-height internal rail sections for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Multi-height push bar
- ✓ Vertical mop frame holder (fits up to 5 tools/frames)
- ✓ Up to 6 buckets fit on top section
- ✓ Designed for pre-prepared cleaning systems

CX Origo 2

The versatile solution, combining generous storage plus fold-down waste.

- ✓ All the benefits of a C but with additional fold down waste section
- ✓ Three separate compartments (e.g. clean, waste and used products)
- ✓ Designed for pre-prepared cleaning systems
- ✓ Can be fully enclosed, with lockable doors and push-button top lids

C-A Origo 2

Featuring a handy satellite for transporting products to and from laundry.

- ✓ Three separate compartments (e.g. clean, waste and used products)
- ✓ Foot pedal release on A satellite
- ✓ Three multi-height internal rail sections for boxes, trays and surrounds
- ✓ Vertical mop frame holders on both sections (fit up to 10 tools/frames)
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for pre-prepared cleaning systems

C-C Origo 2

Featuring a bigger satellite for large sites or high volumes of waste.

- ✓ Clear split of functionality (one C for cleaning, one C for used products or waste)
- ✓ Four multi-height internal rail sections for boxes, trays and surrounds
- ✓ Vertical mop frame holders on both sections (fit up to 10 tools/frames)
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Designed for all pre-prepared cleaning systems or waste removal

C-B Origo 2

Storage, waste plus a Bucket & Press satellite for faster mopping results.

- ✓ Two multi-height internal rail sections for boxes, trays and surrounds
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Satellite B section works with all single and double bucket flat and vertical mops
- ✓ Multi-height push bar on C section and compact push bar on satellite
- ✓ Vertical mop frame holder (fits up to 5 tools/frames)
- ✓ Can also be used for pre-prepared mop box transportation

A-B Origo 2

Compact and versatile bucket & press satellite for sites with limited storage.

- ✓ All the benefits of the C-B but, with only one multi-height internal rail section
- ✓ Can be fully enclosed, with lockable doors and push-button top lids
- ✓ Satellite B section works with all single and double bucket flat and vertical mops

Mop Boxes

- ✓ For pre-preparation of all flat mop types
- ✓ Easy carry handles
- ✓ For use in inner rail sections and top plate
- ✓ Includes colour coding clips
- ✓ Recycled option available (black colour)
- ✓ Optional divider for dosing half a box of mops and lids to protect contents

Waste Management

You take pride in offering a clean and inviting environment for your customers. You understand how important your premises are as a competition factor in your business as well as a vital part of your image. Then you also realise that waste management is an important part of your overall cleaning strategies. So do we, and that's why we offer you complete solutions for keeping your premises attractive – from cleaning systems to our waste management range.

Top class cleaning requires top class waste management

Market leaders by listening

Vileda Professional is a market leader in developing and manufacturing cost effective cleaning solutions. We have reached our position by listening to cleaning professionals, understanding their needs and creating innovative solutions to fulfil them.

By taking this philosophy into waste management, we are able to offer a range of products that are ahead of traditional solutions. Like the innovative 'combined materials' metallic recycling and waste bins, HACCP' hands free' complying pedal bins, multi-purpose durable bins and wheeled 100l containers.

Designed for designed environments

Vileda Professional's waste management range is designed to meet the challenge contemporary buildings and interiors place upon the products used inside them. The Iris and Geo metallic bins are perfect examples of how Vileda Professional is meeting the design challenge head on.

Both ranges utilise the latest 'combined materials' technology, merging the durability and performance of plastic with the aesthetics and image of stainless steel for internal use. The result is a bin for internal use, that is easy to clean, fingerprint, rust and dent proof – plus looks at home in even the latest state-of-the-art interiors.

Benefit from world famous Swiss Quality

Forget that beauty is only skin deep – Vileda Professional products go much deeper than that.

The quality and durability you expect from a Vileda Professional product, is evident with the Geo, Iris, Hera, Atlas and Titan bins. They are manufactured in a ISO 9001 certified production plant in Switzerland – and we all know about Swiss Quality.

So of course all items carry a one-year warranty covering problems related to materials, construction or manufacture.

Geo Metallic – waste separation and recycling

reddot design award
winner 2012

The innovative and durable Geo bin range is the centre of your waste collection and recycling separation system.

- ✓ Durable plastic construction with metallic finish
- ✓ Compact slim line design – fits into the tightest spaces
- ✓ Rust, dent and fingerprint proof
- ✓ Easy to clean and washable
- ✓ Integrated handle – for easy carrying and lifting
- ✓ Integrated bag holder – ensures the correct fit of your waste bag
- ✓ Anti-slip rubber feet – avoids movement in use and protects flooring
- ✓ 2 sizes – 55 l and 70 l
- ✓ 3 lid options – handle, paper or cans with colour coding

Optional wall mounting kit:

- ✓ Ideal for use in washrooms and areas where cleaning under the bin is required
- ✓ Secure, snug fit against walls
- ✓ Bin can be removed for cleaning and emptying if required

Leto – Metallic office bin

The Leto metallic office bin range is designed for indoor use within heavy traffic areas. Like the Geo and Iris range, the Leto office bin utilises “combined materials” technology to give the durability and performance of plastic with the aesthetics and image of stainless steel.

- ✓ Durable plastic construction with metallic finish
- ✓ Rust, dent and fingerprint proof
- ✓ Easy to clean and washable
- ✓ Anti-slip rubber feet – avoids movement in use and protects flooring
- ✓ Optional top ring hides and fixes the inner waste bag
- ✓ Hanging Bin Separators for easy waste separation and recycling
- ✓ To be inserted into Round Office Bin without Ring
- ✓ Available in red and green

Iris Metallic Round – indoor waste collection

The Iris bin range is designed for indoor use within heavy traffic areas.

- ✓ Durable plastic construction with metallic finish
- ✓ Rust, dent and fingerprint proof
- ✓ Washable and easy to clean
- ✓ Integrated handle – for easy carrying and lifting
- ✓ Integrated bag holder – ensures the correct fit of your waste bag
- ✓ Anti-slip rubber feet – avoids movement in use and protects flooring
- ✓ 50 l round

Lid options:

- ✓ Hands free funnel (black, blue, green, yellow and red)
- ✓ Sliding (black only)

Hera – HACCP complying pedal bins

The Hera range of pedal bins comply with HACCP recommendations for 'hands free' operation, making them ideal for use in a variety of applications – from healthcare patient rooms through to food preparation areas where it is crucial to avoid cross contamination.

- ✓ Slow closing lid – ideal for quiet environments
- ✓ Hands Free Operation – complies with HACCP recommendations
- ✓ Large pedal – ideal for use with safety shoes in professional environments
- ✓ Overlapping lid design – keeps odours inside
- ✓ Integrated bag holder – ensures the correct fit of your waste bag
- ✓ Smooth design – easy to clean
- ✓ Anti-slip rubber bumpers – avoids movement in use and protect flooring
- ✓ 3 sizes – 35 l, 60 l and 85 l
- ✓ 6 colours - red, blue, yellow, black, beige and white

Titan – Heavy-duty durable bins

Titan is a range of multi-purpose, heavy-duty durable bins, developed for both outdoor and indoor use. Titan bins and lids are easy to clean and come with a range of innovative features.

- ✓ Soft grip handles – for comfortable lifting when full
- ✓ Heavy duty lid – with channels to increase water run off
- ✓ Easy to clean and wash
- ✓ Integrated bottom handles – for easy lifting and emptying
- ✓ Special bin structure to help removal of heavy waste bags
- ✓ 2 sizes – 85l and 120l
- ✓ 2 lid options - Standard lids (85l and 120l) and Hands free funnel lid (120l only)
- ✓ 3 colours – black, grey, white
- ✓ Certified food proof colours – yellow and white
- ✓ Heavy Duty Wheeled Dolly for transporting both the 85l and 120l titan bins
- ✓ Brake on one castor to secure and stop movement of the bin in use
- ✓ Outer rubber bumper strips protect walls from scratching
- ✓ 4 heavy duty swivel castors, suitable for indoor and outdoor use
- ✓ Heavy duty, suitable for use with loads of up to 100 kg
- ✓ Screws enclosed for heavy use (more than 100 kg)

Atlas – Mobile bin on wheels

The Atlas 100l mobile bin is designed for indoor and outdoor use within a wide range of industrial environments.

- ✓ Padlock eye – to allow locking of the bin lid
- ✓ Extra wide opening
- ✓ Large rubber wheels – for easy transport
- ✓ Integrated bag holder – ensures the correct fit of your waste bag
- ✓ High handle – for easy mobility
- ✓ 6 Colour coded lids – black, green, grey, yellow, red and blue
- ✓ Cans lid for waste separation of bottles and cans, available in blue/black
- ✓ Bin available in black only

Matting

By using an effective entrance system that traps heavy dirt, cleaning is easier, less expensive and last but not least, more ergonomic and lighter for the cleaning staff.

Let the mats do the hard work! It is a well-known phenomenon that 80 % of dirt comes in through the front door. And it is even worse when the weather is bad. The less dirt that comes in from the outside, the easier the cleaning. We therefore regard mats as a natural and important part of our cleaning system.

Effective cleaning in three simple steps! 1+2+3

Modern cleaning is much more than single products and methods. It's about taking a total view of the object that needs to be cleaned. That's why we see matting solutions as a rest important step in the cleaning process.

1

1. Stop the dirt at the entrance
Dirt that does not get in does not have to be cleaned out.

2

2. Clean the interior fast and easy
When the dirt is inside you have to take care of it in the best way. Vileda Professional has a wide assortment of high quality cloths, scourers and also interior mops.

3

3. Last but not least the floor
We have solutions to suit your needs: mops, squeegees, brushes and floor pads.

V-Mat

V-Mat Standard: The market's most effective and stable scraper mat

-  unique pattern cleans effectively in both directions
-  open structure deal with toughest dirt and hide it
-  durable and stable material

V-Mat Duo: The effect of two mats in the space of one

-  combination scraping mat that collects the heavier dirt and a textile mat that takes care of moisture and the finest particles

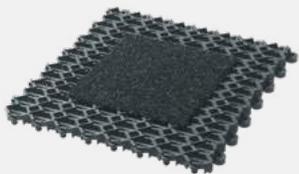

V-Mat Standard

-  PVC and rubber inter connectable
-  Fire resistance
-  32 tiles per case (2 m²)
-  compatible with V-Mat Duo

Cleanroom Cleaning

Effective cleaning and full contamination control are key to profitable production of pharmaceuticals, medical devices and delicate microelectronics. Vileda Professional works to optimise cleaning in controlled environments offering functional and autoclavable utensils. Vileda Professional is a competent partner with knowledge to help in almost all situations with the right solution and support.

Assortment for Controlled Environment

Vileda Professional Production Facility Cleaning

Front to back door

Vileda Professional are able to supply cleaning equipment for your entire facility. We offer innovative cleaning systems for professional cleaning.

Suggested application areas for items found in this catalogue

Front to back door

4 ISO Class 4 cleanroom

(Fed. Std. 209E rating is Class 10). Has no more than 352 particles per cubic meter equal to and larger than 0.5 microns.

5 ISO Class 5 cleanroom

(Fed. Std. 209E rating is Class 100). Has no more than 3.520 particles per cubic meter equal to and larger than 0.5 microns.

6 ISO Class 6 cleanroom

(Fed. Std. 209E rating is Class 1.000). Has no more than 35.200 particles per cubic meter equal to and larger than 0.5 microns.

7 ISO Class 7 cleanroom

(Fed. Std. 209E rating is Class 10.000). Has no more than 352.000 particles per cubic meter equal to and larger than 0.5 microns.

8 ISO Class 8 cleanroom

(Fed. Std. 209E rating is Class 100.000). Has no more than 3.520.000 particles per cubic meter equal to and larger than 0.5 microns.

Suitable for autoclaving

Controlled Environment Trolleys

Trolleys that meet the highest cleanroom standards

The CE Trolley range has been specifically designed and developed for use in controlled environments where maximum contamination control is needed. The trolleys are electro-polished stainless steel with air tight connections and smooth weldings. This ensures excellent biological control while being easy to clean and fully autoclavable. The trolleys are extremely functional and versatile with superior ergonomics. Both trolleys offer ample space for all utensils needed for effective cleaning and are fully customizable to meet your exact needs. The range is completed by CE Bucket Dollies to work in cleanrooms where space for storing cleaning equipment is limited.

They carry what you need – But not bacteria or contaminants!

Both trolleys offer ample space for all utensils needed while cleaning effectively. Each trolley can be customized with various buckets, boxes, sieves, bin bags – you decide and specify!

Both trolleys can be used with the new innovative Vileda Professional Dip-N-Go sieve. This is ideal for areas that require high disinfection contact times.

When designing these trolleys, our full focus was in maximizing contamination control. This is why we electro-polished our stainless steel, provided true smooth weldings, and ensured tight fittings. These trolleys are easily wiped down or disassembled and autoclavable.

CE Pre-Prepared Trolley

Working Station
Top shelf with fixed box position for 1 pre-box or 2 x 6 l buckets.

Bin-bag holder
70 l bin bag holder to dispose of used mops.

Storage Area
Store your pre-prepared mop box or 25 l long bucket.

Frame Holders
Two mop frame holders, one on each side.

Handle Holders
Two stainless steel mop handle holders, one on each side allowing fixation of handles.

Support Bar
Support bar for optional Dip-N-Go Sieve.

CE Bucket Trolley

Working Station
Storage area on rear of trolley fitting 25 l long bucket or 2 x 6 l buckets.

Handle Holders
Two stainless steel mop handle holders, one on each side allowing fixation of handles.

Cleanroom Casters
Auto-clavable. Extremely quiet. Each trolley is equipped with four casters, two with brakes.

Frame Holders
One on each side allowing for storage of various sized mops including Roll-O-Matic and DuoMops.

Support Bars
Support bar for DuoPress Wringer or Dip-N-Go Sieve and Support Plate.

Colour coded bucket system
Single, double, or even triple bucket options. Buckets include Colour coded clips allowing full Colour coding.

3rd bucket extensions
See pictures to the left.

CE UltraSpeed Pro™

Cleanroom mopping made easy

Designed for use in cleanrooms up to ISO 4-9/GMP A/B, C/D within Pharma, MedDevice, BioPharma, Healthcare, Microelectronics industries, CE UltraSpeed Pro™ outperforms current bucket and wringer systems in every aspect. All system parts are fully autoclavable, the Polyester Microfibre mops offer low particle shedding and outstanding cleaning performance. Touchless wringing of mops greatly reduces the risk of cross-contamination and the user controls how wet the mop is for disinfection and removal of contamination. Additionally, the compact chassis is ideal for sites with limited storage, it is lightweight, ergonomic and so easy to use.

CE UltraSpeed Pro™ Double Bucket

- ✓ CE double bucket version of the fastest bucket and press microfibre mopping system
- ✓ Innovative second bucket allows system to be used with press in the middle or back of the system
- ✓ Compact and lightweight system
- ✓ Small footprint – ideal for limited storage
- ✓ Kit includes chassis, buckets 25 l and 10 l, V-press with lever
- ✓ Optional: Pushbar to be added for easy handling and maneuver

DuoMops for Cleanroom Cleaning

Two sides – Half the effort

The less time you spend on cleanroom cleaning, the less you interfere with keeping the core business running. The unique DuoMop concept is the perfect answer to meet the high demands for effective cleaning and disinfection of cleanroom and controlled environments. It is faster, easier and twice as efficient as traditional methods. The DuoMops allow you to achieve your contact time requirements for common disinfectants, and still reach an excellent cleaning performance with up to 99.99 % bacteria removal*. Quite simply, the CleanTech and SanTech DuoMops form the most efficient and reliable cleaning concept in the market for contamination control.

*certified by BMA laboratories Bochum Germany (August 2012)

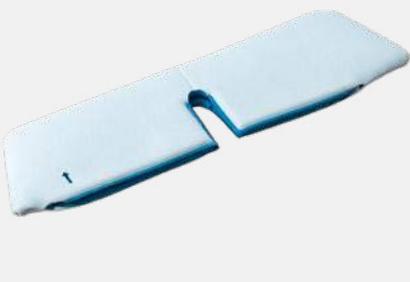

CleanTech Duo Microfibre Laminated Mop

- ✓ Microfibre laminated cleanroom foam for cleaning/disinfecting floors, walls and ceilings
- ✓ Adhesive-free lamination techniques are used to prevent additional contamination to your products
- ✓ Designed for use in cleanrooms up to class ISO 5/GMP A & B/FED209D Class 100
- ✓ Excellent microfibre cleaning results have been independently proven bacteria reduction of 99.997 %
- ✓ Suitable for bucket and pre-prepared method
- ✓ Manufactured and sterilized in the USA | **Sterile**
- ✓ Validated to 10⁻⁶ SAL per ISO 11137 | **Sterile**
- ✓ Individually double bagged with Lot # and Indicator Dot on each package | **Sterile**

Swept Mopping System and MicroControl CE Mop

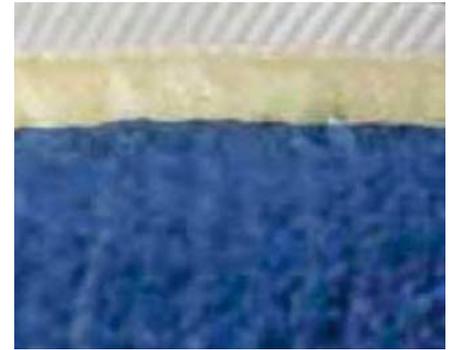

Cleanroom cleaning with control

The patented edge cleaning lip design allows for effective cleaning of corners, skirting boards etc. Straight and clean design with no dirt traps.

One cleaning tool for floors, walls and ceilings.

Multilayer design with sealed edges for high absorbency, low particle shedding and top stability.

The pre-prepared method. Fast, effective, sustainable

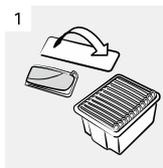

Using pre-prepared mops is the superior way to achieve a controlled cleaning process. By changing to a new clean mop head for every room or area, cross-contamination is effectively avoided.

All mops are evenly pre-saturated through an effective pre-preparation method – just fold the mops in the pre-boxes and use the sieve to dose. The result is no risk for contamination and no more heavy buckets or trolleys with chemicals or disinfectants in your cleanroom.

With just one single mopping system needed for cleaning floors, walls and ceilings you will benefit from the most effective usage of both your mops and cleaning – or disinfecting chemicals. Plus they are prepared with your own validated chemicals or disinfectants.

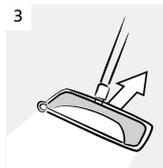

Tested for ISO class 2
by IPA Fraunhofer Institute /
Germany

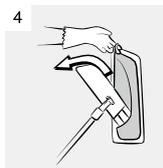

Mops are placed in a Pre-box and pre-dosed with water and chemicals.

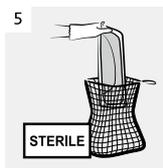

Mops are left in Pre-box for 5–10 minutes to absorb the cleaning or disinfectant solution and then placed on the trolley.

When the operator enters the room/area to be cleaned, a clean mop is taken from the Pre-box and placed onto the frame. Directly after, cleaning of the ceiling/wall/floor begins.

A clean mop is then taken from the Pre-box to continue mopping or for use in the next room/area.

Once the room/area (max. 20 m²) has been cleaned the mop is removed from the frame and placed into a washnet/box for laundering (internal or external).

MicroControl CE Mop

- ✓ 100% microfibre mop surface offering high cleaning performance
- ✓ The patented edge cleaning lip design allows for effective cleaning of corners, skirt boards etc.
- ✓ Straight and clean design with no dirt traps
- ✓ Multilayer design with sealed edges for high absorbency, low particle shedding and top stability
- ✓ Ergonomic performance and high efficiency due to the Vileda pre-prepared method
- ✓ Swep mopping system – One cleaning tool for floors, walls and ceilings
- ✓ Excellent microfibre cleaning results have been independently proven bacteria reduction of 99.9%

Roll-O-Matic®

The self-wringing cleanroom mop

The Vileda Professional Stainless Steel and Aluminum Extendable Roll-O-Matic® mops are the best choice when seeking one mop to apply disinfectant, clean surfaces or absorb spills in all production and controlled environments. These Stainless Steel Roll-O-Matic® mops are manufactured to resist repeated autoclave cycles and continued exposure to the common chemicals and disinfectants used in the controlled environment marketplace.

Perfect for use with the most popular "Pull and Lift" technique

The straight head design allows the user to flip the mop head after a specific number of strokes for extended use between wrings.

The Vileda Professional Roll-O-Matic® sponge mop refills are manufactured in the USA

The new "Advanced Technology" foam is manufactured specifically for the controlled environment industry allowing 25% more liquid absorption and two times more liquid release than competing foams. Each refill is completely autoclavable, resistant to gamma and ETO sterilization as well as individually packaged and lot number controlled. All Vileda Professional brand refills are ideal for use with the "Pull and Lift" technique most commonly used in controlled environments.

Roll-O-Matic® Original Stainless Steel Sponge Roller Mop

- ✓ Original Stainless Steel Cleanroom Roll-O-Matic® Sponge Roller Mop
- ✓ Original Stainless Steel Cleanroom Roll-O-Matic Sponge Roller Mop in a 35 cm length for high walls and ceilings
- ✓ Entire mop handle is completely autoclavable at the most common autoclave cycles
- ✓ Cap is stainless steel and completely sealed
- ✓ Straight handle allows user to properly use the pull-and-lift technique with both sides of the mop
- ✓ Perfect for use on walls, floors and ceilings

SpillEx CE

Easy removal of spillages in your cleanroom

Application area

SpillEx CE is a super absorbent pad for absorbing all water based liquids

- High Absorbency: SpillEx CE contains super absorbing polymers in a high concentration
- No dripping or leaking: The absorbed water is transformed into gel, the liquid is bonded safe in the pad, no dripping
- Hygienic: Safe handling of liquid contaminations
- No soiling of cleaning solution: When working with bucket method the use of SpillEx CE prevents cleaning solution contamination, which saves time and money

For
sterile and
non-sterile
areas

Collect spill	Place and absorb	Pick and dispose
<p>1</p> <p>1 Collect the spill with the Squeegee in one area</p>	<p>2</p> <p>2-3 Place SpillEx CE over it, let it absorb and remove after a few minutes</p>	<p>3</p> <p>30-120 s</p> <p>4-6 Any broken glass or similar, can be removed with dustpan</p>

SpillEx CE – Disposable super absorbent pads

SpillEx CE

- SpillEx – absorbent pad for spills and leakages
- Easy removal of all kind of human liquids up to 5l (filtered water)

SpillEx CE – Gamma irradiated

- Gamma Irradiated absorbent pad for spills and leakages
- Single pack, doubled bagged with gamma indicator dot
- Easy removal of all kind of human liquids up to 3,5l (filtered water)

Cleanroom Wipes

EvoControl wipes that cover all your needs

EvoControl is based on Evolon® – a patented fully inline production process. EvoControl® is the next generation microfibre cloth manufactured from endless microfibres measuring 0.15 dtex (10 times finer than standard Polyester microfibres). The unique fabric combines very good textile and mechanical properties.

Remove contaminants in one wipe

Easily wipe spills and remove particles from a surface using a one step movement with EvoControl wipes. The EvoControl efficiency has been tested by an independent institute proving a 99.999% bacterial removal from surfaces, without the use of disinfectants.

The key is the unique and patented Evolon microfibre material. To you it means you save time, money and ergonomic stress.

Evenly distribute disinfectants

The balance between liquid absorbency and release to the surface is ideal for applying a film of liquid to surface in cleanroom areas.

EvoControl wipes have been developed and designed to hold the right amount of liquid, distributing it readily and evenly onto the surface, thereby reaching the desired and critical contact times.

CE Wipes durable

EvoControl 500+ – Contamination collector & residue remover

- ✓ Designed for multiple use
- ✓ Pre-laundered, laser-cut durable wipe
- ✓ Point Sealed wipe enables microporeus cleaning to improve validation SOP's
- ✓ Semi-durable can be washed and sterilised up to 20 cycles

CE Duo™ CleanTech™ Sponge

Single use sponge for Cleanroom cleaning

This microfibre laminated cleanroom foam is ideal for cleaning/disinfecting all types of surfaces including hard to reach areas like behind equipment and piping, door handles, transition surfaces and all surfaces where a mop can not reach. As well as equipment and furniture such as hoods, isolators, piping and cabinets. CE Duo™ CleanTech™ Sponge can be used with either bucket or pre-prepared method. The double sided, hand held design results in a higher degree of user control.

Designed for use in cleanroom class ISO 5/GMP A+B/FED209D Class 100 and above.

CE Duo™ CleanTech™ Sponge

- ✓ Disinfecting and cleaning in cleanrooms for hard to reach areas
- ✓ Unmatched liquid release
- ✓ Superior absorbency and spill pick up performance
- ✓ Proven microfibre technology
- ✓ Designed for use in cleanroom class ISO 5/GMP A+B/FED209D Class 100 and above
