Pergola awnings Perea

More time together in the countryside

Look forward to an unrivalled summer. Whether on sunny, rainy or windy days – you can spend time in the fresh air regardless of the weather, protected from the elements. Your pergola awning Perea transforms your sweeping patio or spacious balcony into a place to feel cosy and comfortable – a new airy centre of life in your home with family and friends.

A high degree of individuality

With your WAREMA pergola awning, you enjoy the really special lifestyle of freedom and nature every day. And this includes not only the pleasant shade and temperatures, but also the aesthetic and versatile design options of your Perea. Thanks to the large selection of fabrics, frame colours and accessories, the pergola awning will become your very own Perea.

Outstanding design

Combine first-class sun shading with outstanding design. With the pergola awning Perea, you create a unique eye-catcher. This is outdoor living in its most individual shape. Because the guidance of the fabric tension is not only available straight but also curved. Perfectly adapted to the ambiance of your architecture and garden. The secudrive® technology also opens up the fabric. Create your very own highlights. The Perea is your high-grade textile sun shading system.

Individual and high-grade equipment

Stylish design:

Perea P20 and P40

The pergola awning Perea P20 impresses with its slender design (slim poles and guide rails) and modern shape, which perfectly match the cubic building architecture (rectangular cover panel, rectangular reinforcement profile). It is characterised by high wind stability and outstanding fabric tension.

With the pergola awning Perea P40, you can choose between straight or curved guide rails. Two aesthetically outstanding design options are available. Completely individual and matching the architecture of your house. Combine elegant design with smart operating comfort and turn your patio into a real oasis of enjoyment. Always make the right decision with a pergola awning Perea P40.

Perea P20	<i>max. width</i>	<i>max. depth</i>
	6.5 m	6.0 m

Perea P40	<i>max. width</i>	<i>max. depth</i>
<i>curved</i>	6.5 m	5.0 m
<i>straight</i>	6.5 m	5.0 m
<i>or</i>	5.0 m	7.0 m

① WMS Radio remote control

Convenient operation via hand-held transmitter, wall-mounted transmitter, smartphone or tablet

② Valance roller blind

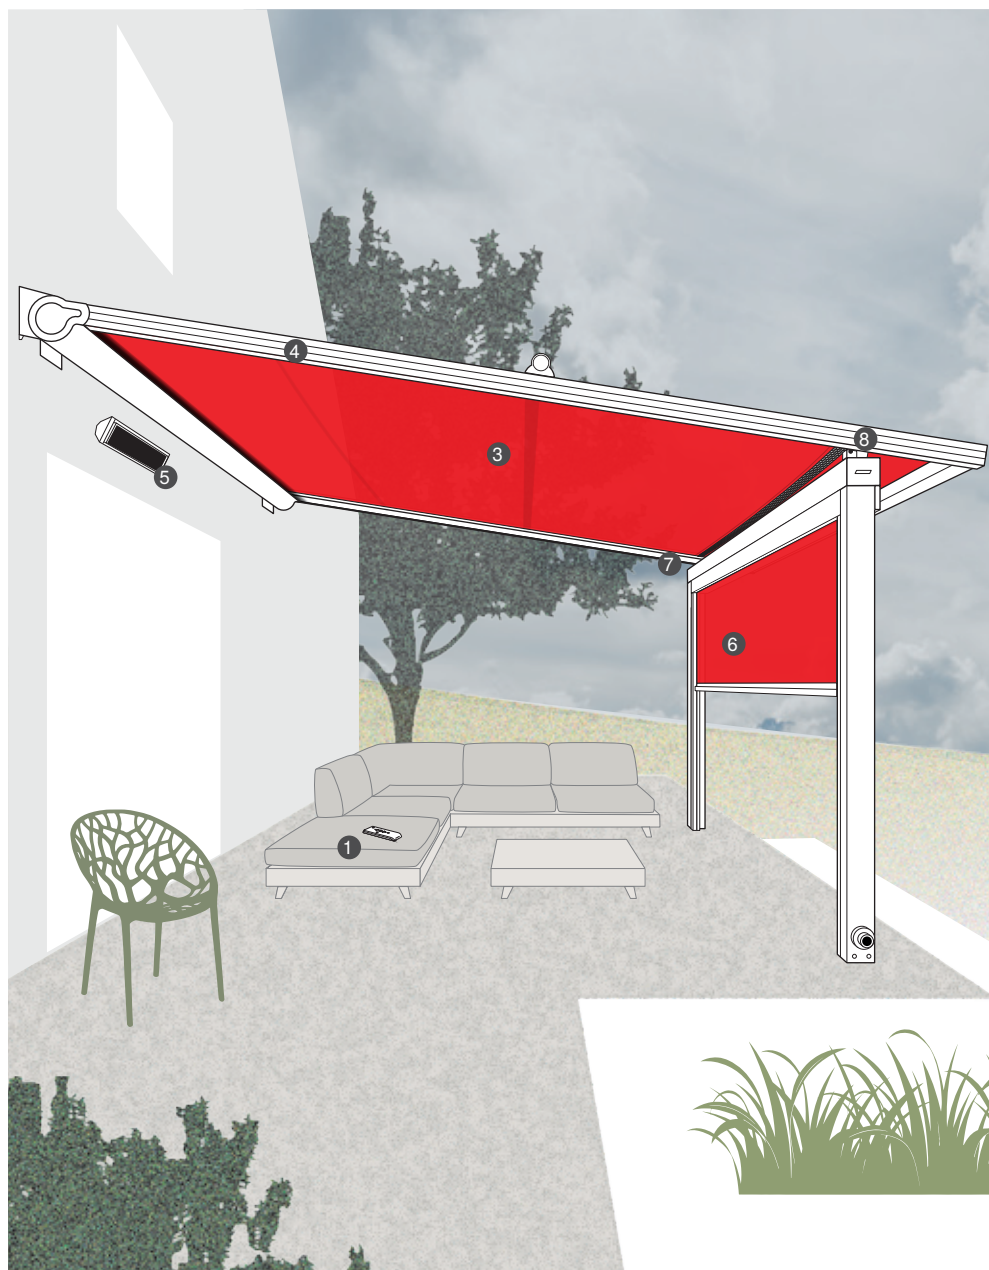

Perfect protection, even with low-lying sun on the west side, for example

③ Colour selection

Large selection of colours and designs for the frame and fabric

④ LED strips

Remote controlled and dimmed, with integrated LED strip

Always weather-resistant: Perea P60 and P70

These rainwater-proof models Perea P60 and Perea P70 mean you are independent of the elements.

A PVC grid discreetly built into the fabric of the pergola awning Perea P60 ensures controlled drainage out through the pole via the rain gutter.

The Perea P70 also offers effective rain protection when extended. Special profiles also strengthen the fabric. If the awning is retracted, the cover panel protects the fabric from soiling.

Perea P60	max. width	max. depth
	6.0 m	5.0 m

Perea P70	max. width	max. depth
	6.0 m	6.0 m

5 Radiant heater

Infrared quartz technology or Design radiant heater with tinted glass ceramic

6 Vertical shading

Front-mounted awnings with easyZIP guidance or GranTex with easyZIP guidance as ideal sun shading, visual privacy and wind protection

7 secudrive® technology

Prevents an unwanted lateral light gap due to the tight guidance of the fabric and stabilises the awnings in windy conditions

8 Controlled rainwater drain

Rainwater drains through a PVC grid incorporated into the fabric or through the drainage gutter and is drained through a rainwater drain integrated into the pole

Perea P70 "Rainproof"

Spend more time on your patio –
in all weather!

Whether sun, wind or rain – the sturdy construction and the weather-resistant fabrics of a pergola awning Perea allow you to enjoy your patio whenever you please.

You can shade up to six by six metres with a pergola awning Perea P70. This will make your patio the focus – for example, at your garden party or a large festive outdoor table.

A special feature of the pergola awning Perea P70 is what is known as the cloud curtain. The fabric is retracted in uniform, cloud-like folds. This pleating technology gives your pergola awning Perea an extravagant appearance even when it is closed.

The features make the difference

The extensive WAREMA fabric collection

For the Perea P20 and P40 variants, you receive a wide range of weather-proof acrylic fabrics. ●

Water-proof fabrics For Perea P60 and P70, weather and rain-proof fabric qualities are available. ○

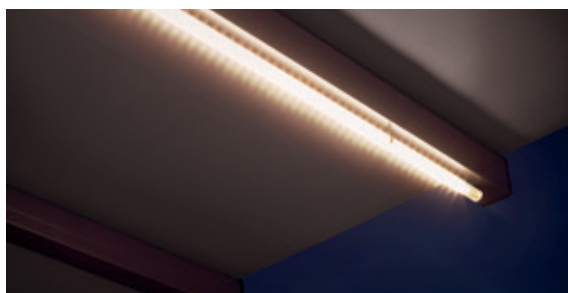

P20	P40	P60	P70
●	●	○	○

The optional valance roller blind

The valance roller blind provides protection against low-lying sun and prying eyes from outside. Depending on your requirements, the valance roller blind can be operated by crank or conveniently with a WMS Hand-held transmitter.

Dimmable LED lighting

The Perea P20, P40 and P60 can be equipped with LED strips integrated in the guide rails. For the Perea P70 light rails are available as surface mounted variants on the reinforcement profiles. Both variants can be individually adjusted with the WMS Dimmer. From bright light to atmospheric ambience lighting, all lighting variations for cosy summer evenings are possible.

Vertical shading

This solution perfectly matches your Perea pergola awning in terms of design: vertical shading using front-mounted awnings with easyZIP guidance or GranTex with easyZIP guidance. In the event of emerging wind, up to three sides can be closed using the radio system. This creates a living room with all-round protection, regardless of the weather. The fabrics used are robust and the construction is extremely wind-stable.

Feel-good atmosphere with the radiant heater element

For when you want to use your patio in the evening when the temperature drops: the Design radiant heater (2,200 Watts) with tinted glass ceramic allows you to enjoy longer evenings under your awning.

P20	P40	P60	P70
●	●	●	●

Intelligent WMS sensor system

Do you want a high degree of comfort and protection for your awning? The cleverly placed WMS sensor system is compatible with pergola awnings Perea P20 and P40. Thanks to the sensor, your awning will retract fully automatically in the event of emerging wind or precipitation and will open automatically when the sun shines thanks to the integrated photo sensor. Without you having to actively intervene.

Extra comfort...

...during planning & design

Visualise your dream awning with the WAREMA configurator or in "real life" on your own patio with our augmented reality app, the WAREMA Designer – available free for Android and iOS! Both tools at: www.warema.com/designer

WMS: The radio system for smart sun shading

Thanks to individual automation of the WMS radio system, the perfect home climate can be created depending on the time of day, position of the sun and weather conditions.

You can operate your Perea via WMS Hand-held transmitter or smartphone or automatically using the WMS sensors. With the WMS WebControl pro, you can operate your sun shading products using Alexa voice control or from everywhere via the app. Or operate your entire home (sun shading, light, heating and more, from different manufacturers) via just one app.

This means you always have an overview of all devices and can comfortably operate these from everywhere – WMS and homee make it possible.

Front-mounted awnings with easyZIP

Spend more time outside

Front-mounted awning with easyZIP guidance: wonderful and wind-stable

Additionally equip your pergola awning Perea with a front-mounted awning and look forward to even more time in the fresh air. The vertical front-mounted awning provides protection from low sun, light wind and prying eyes. The unique easyZIP guidance ensures a tight curtain with high wind stability (up to 150 km/h), without any lateral light gaps.

You can attach the front-mounted awnings on every side of your Perea. This creates an "open air living room" on your patio. Choose your individual solution from our collection with over 300 designs – optimally suited to the colour of your Perea and for a uniformly aesthetic overall design.
